DIGITAL COMMUNICATIONS STRATEGY

Our communication strategy is based on a complete ecosystem of content distributed via articles, posts, newsletters and social networks.

We highlight new developments, trends and innovations in the sector through specialized articles and regular publications.

You send us your key elements for posts and articles highlighting your products and your brand.

This content is then relayed on our social networks, where we have an engaged audience, and in our (bi)/monthly newsletter, sent to more than 17,000 qualified contacts.

This system offers you unique targeted visibility among professionals in the sector, by creating synergy between the different communication channels and reaching a large audience of professionals.

1 YOUR BACKLINKING BOOSTED THANKS TO DIGIFLOR

Search engines love backlinks!

They are used by "Crawl" robots to explore new web pages and find new links.

This is an essential element for good natural referencing

2 SAVING TIME AND RESOURCES

- By pooling certain costs, DIGIFLOR allows you to benefit from a broader marketing reach without having to invest as much as in individual marketing.
- By delegating certain marketing and communications tasks, you save time and resources.

3 INTEGRATED DIGITAL MARKETING STRATEGY

 The advertising and promotion options on DIGIFLOR, combined with its integrated marketing tools such as sending newsletters, targeted advertisements and specific promotions, help increase awareness of your brand among a qualified and engaged audience
